

# Outdoor Sector Industry Training Initiative

*3 days sharing skills and experience as outdoor professionals.*

## Industry Training Initiative

Sunday to Monday 21 to 23 January 2012

Led by a range of outdoor professionals in the field of paddling, roping and bushwalking this residential long weekend was provided to assist those experienced in working and teaching in the outdoors to gain recognised competencies in selected activity areas including:

- **Bushwalking in tracked areas**
- **Artificial rock climbing**
- **Flat water canoeing**

The weekend enabled practitioners to share ideas and brush up on old skills. Assessment was hands-on with opportunities for socialising and networking.

Thanks to the team from **Outdoors WA, Fairbridge, Bridging the Gap and the Department of Sport and Recreation.**
